

Shea De Lutis-Smith

Director, Market Sector Research and Project Development

With over twenty years of experience in the construction industry, Shea DeLutis-Smith oversees Clark Construction's national healthcare strategic development activities. In this position she serves to leverage the firm's national and regional strength through coordinated strategic initiatives, relationships, and opportunities. She also supports regional offices in the development of the firm's most complex project pursuits such as the \$750M Walter Reed National Military Medical Center in Bethesda, MD.

Actively involved in the real estate and construction industry, Ms. De Lutis-Smith currently serves in a national leadership role with the Associated General Contractors of America (AGC), the largest and oldest national construction trade association in the U.S. As the Co-Chair of AGC's U.S. Army Corps of Engineers Committee, she champions the committee's mission to develop and advance planning, procurement and construction best practices through enriched channels of communication between industry and federal entities.

Ms. De Lutis-Smith is a founding member of the Design Build Institute of America's Mid-Atlantic Chapter; a past President of the Associated General Contractors of Metropolitan Washington, D.C. (AGC of DC) Chapter, continues to serve on the AGC of DC Board of Directors, and is active with the National Association of Industrial and Office Properties (NAIOP).

Ms. De Lutis-Smith earned a Bachelor of Science degree in Civil Engineering and Applied Science from the University of Virginia in 1997 and remains engaged with the School of Engineering and Applied Science.
