

## Safety Tip Challenge

Seeking safety tips from AWI Manufacturing Members, including all employees of AWI member companies...

Each quarter, the AWI Safety Committee will review and select the best submittals to date.

Each submittal remains in the competition for the entire year, so all entries have an equal opportunity for review each quarter. (Quarterly winners are excluded from future consideration). The AWI Safety Committee reviews and judges all entries and selects the winners; all judging decisions are final.

Each winner receives a beautiful Starrett Model S909Z combination square valued at almost \$300, compliments of the AWI Safety Committee and our partner in risk management, CNA Insurance.

**To submit your tip**, go to the following Web site link:
