

Chesapeake UROLOGY

The most personal care for life's most personal issues.

The ZERO Prostate Cancer Challenge is presented by Chesapeake Urology to benefit ZERO-The End of Prostate Cancer and the American Urological Association's Urology Care Foundation. Over the past 10 years, the ZERO Prostate Cancer Challenge Baltimore event has raised over \$3 million for prostate cancer research, awareness and free screenings. We invite you to join us in supporting this important cause!

Chesapeake Urology Associates, the leading urology group in Maryland and the Mid-Atlantic, is one of the Nation's largest fully integrated urology practices. Our 66 physicians and 500 associates are dedicated to providing patients with the most innovative and compassionate care available.

The American Urological Association (AUA) and the Urology Care Foundation are committed to supporting urologic research through funding, advocacy and scholarly exchange and have been providing support to urology researchers for more than 35 years.

The Chesapeake Urology Research Scholarship Award is important to urologic research and will help to provide prostate cancer data and information to advance progress towards a cure.

ZERO - The End of Prostate Cancer is a non-profit organization committed to ending prostate cancer. The premier men's health event series in America, the ZERO Prostate Cancer Challenge, is a heartfelt, community activity that brings together athletes, cancer survivors, physicians, caretakers, family members and friends in the fight to end prostate cancer. ZERO is proud to partner with medical, corporate, and nonprofit partners across the country to host events from coast to coast. We save lives and stop pain and suffering by advancing research, encouraging action, and providing education and support to men and their families.

Your participation supports programs that are knocking out prostate cancer.

Since 2007, Chesapeake Urology has brought our unique, physician based, cancer screening model to high risk neighborhoods in the Baltimore metro area. Working side by side in partnership with African American churches and organizations, we have provided over 6,000 free prostate cancer screening tests to Baltimore area men who are at the highest risk for prostate cancer.

Our screening program brings our physicians into the local communities that need them most, to promote preventive care, create awareness about diseases and conditions that most affect them and help to identify problems before they become life-threatening. Our President and CEO, Dr. Sanford J. Siegel, speaks at each screening event and Chesapeake Urology physicians and employees have donated over 3,290 hours of volunteer service to the community through this program since 2007.
